February 15, 2025

Hello to All,

After almost 45 years I have been honored to serve you, as my patients in Northeast Ohio.

Unfortunately, I have just received confirmation of a catastrophic medical illness. I have beaten cancer before, and God willing, hopefully I will overcome again.

To be fair, with many ongoing medical incidents, I am not retiring from dentistry, yet obviously it is time to step away from a full-time work schedule and practice management.

**Good News** is Dr. John Hudec and his team of doctors are kind enough to continue your care. Dr. Hudec is a colleague of mine, whom I have practiced with for almost 20 years.

Especially for March, all future appointments that have already been scheduled for hygiene will be honored, along with treatment for services with me will be provided by these capable doctors:

- Dr. Brian Hudec, was a classmate of my son, Peter, at St. Ignatius High School.
- Dr. Kristin Donison is very experienced at the nearby Bedford office. Both Jen and I have pleasantly worked personally with Dr. Donison for years.
- Dr. Ashley Dawes is at the Macedonia location.
- Dr. Jessica Popa is at the Broadview Heights office.

I will miss your friendship.

Yours in health,

**Dr. David**
